HOW TO PLAY

Game Overview

Kitty Life™ has three modes. First, you will **Adopt and Raise a Kitten**. After you've taken care of it, it will grow to be a young cat - then, the adventure begins and you can switch between exploring the town in **Adventure Mode** and caring for your kitty in **Virtual Pet Mode**.

Adopt and Raise a Kitten

On the adoption screen, move the **Paw Pad Controllers** left and right to select a kitten to adopt, then press a **Paw Pad Controller** to confirm your choice. Next, take care of the kitten until it grows to be a young cat - then, the adventure begins!

The kitten will use thinking bubbles to tell you what it needs. For example, the first thing it will need is some milk . To take care of its needs, select and use items from the item tray. Use a **Paw Pad Controller** to move the cursor to the bottom to reveal the item tray. To pick up an item, move the cursor over it and then press a **Paw Pad Controller**. To use or place an item, move it to the kitten or to a floor location, then press a **Paw Pad Controller**.

Kitty's Needs

When the kitty needs to be taken care of, a thinking bubble appears above its head. Observe its needs and fulfill them with the appropriate items.

A New Kitten's Needs	
	The kitten is hungry. Feed it with a bottle of milk.
	The kitten wants to play. Pick a toy to give to it!
	The kitten is cold. Select the blanket to help keep it warm.

After raising your kitten, it grows up and you can split your time between exploring as your cat (in **Adventure Mode**) and taking care of it at home (in **Virtual Pet Mode**).

All that adventuring works up an appetite! When a hunger sign 🍽️ appears above your kitten's head, it's time to head home and give your furry friend a meal.
