NOTE

- Press the suction cup firmly onto a smooth, clean, flat surface. For best results, ensure both the surface and the suction cup are clean and free of dust.
- The suction cup works best on non-porous surfaces like plastic. Do not use on textured, porous or uneven surfaces.
- Before use, check that the surface is suitable for the suction cup. If the suction cup doesn't stay in place or falls off easily, the surface may not be compatible. Try a different smooth, non-porous area for a better hold.
