PRODUCT SPECIFICATION

Battery	One CR2450 battery
Time Format	12H or 24H
Display	Digital
Optimum Operating Temperature	32°F - 104°F (0°C - 40°C)

Important Note

- Do not place the watch under running water.
- Do not submerge. Not suitable for showering, bathing or swimming.
- Keep the cover closed when the watch is not in use.

WARNING

People with very sensitive skin may notice some irritation after wearing the **Wackadoo Watch** for extended periods of time. The skin may become irritated when moisture, sweat, soap, or other irritants get trapped under the wristband and are left in contact with the skin. To prevent this, we suggest children remove the watch before going to bed for the night, take the watch off if it's feeling uncomfortable, and keep their wrist and the band clean and dry.

In addition, wearing the watch too tightly may also cause irritation. Make sure the fit is good - tight enough so the watch stays in place but not so tight that it's uncomfortable. If you notice any redness, swelling, or other irritation, you may want to consult a doctor before wearing the watch again.
INSTRUCTIONS

Power Source
The **Wackadoo Watch** operates using one CR2450 battery. The CR2450 battery included with the product is for demo purposes only.

BATTERY REMOVAL AND INSTALLATION

NOTE: For best performance, remove the factory-installed battery from the Wackadoo Watch and use a new battery.

1. Make sure the watch cover is closed.

2. Find the battery cover located on the back of the unit, use a screwdriver to loosen the screw and then open the battery cover.

3. Use the screwdriver to push the metal piece according to the diagram. Remove the battery when one end of the battery pops up.

4. Follow the diagram inside the battery box to install one new CR2450 battery, press it into the battery room.

5. Replace the battery cover and tighten the screw to secure.

WARNING:

Adult assembly required for battery installation.
Keep batteries out of reach of children.

Disposal of batteries and product

The crossed-out wheelie bin symbols on products and batteries, or on their respective packaging, indicates they must not be disposed of in domestic waste as they contain substances that can be damaging to the environment and human health.

The chemical symbols Hg, Cd or Pb, where marked, indicate that the battery contains more than the specified value of mercury (Hg), cadmium (Cd) or lead (Pb) set out in the Batteries and Accumulators Regulation.

The solid bar indicates that the product was placed on the market after 13th August, 2005.

Help protect the environment by disposing of your product or batteries responsibly.

VTech® cares for the planet.

Care for the environment and give your toy a second life by disposing of it at a small electricals collection point so all its materials can be recycled.

In Australia & New Zealand:

Check with your local council for kerbside collections.

Activate Normal Play

When you use the watch for the first time, you must unlock from Try-Me mode to play. To unlock from Try-Me mode, open the **Cover**, and press the **Left + Right + OK Buttons** together for approximately five seconds. You will then hear three squawk sounds to indicate it has been unlocked. Press any button to activate the watch and set the time.

Press the **Left** or **Right Button** to select, then press the **OK Button** to confirm and move to the next option. A tick will be displayed when the setting is complete.

Note:

- When the battery level is low, most functions on the watch may not be activated, except for the clock display. It is recommended to install a new battery as soon as possible before further use.

- If the battery level is too low and cannot keep the clock running, you will need to enter the time again after the battery has been replaced.
